

FRP RECREATION BRIDGES

Wheeler

FRP

RECREATION BRIDGES

Truss Bridge Kits

Individual components of the truss bridge are light enough to be hand carried. All components are shop fabricated (cut and drilled), marked and packaged for delivery. Kits can be partially or completely preassembled depending on site access.

Wheeler has teamed with Strongwell to provide bridge kits manufactured with

Fiber Reinforced Polymer Composite

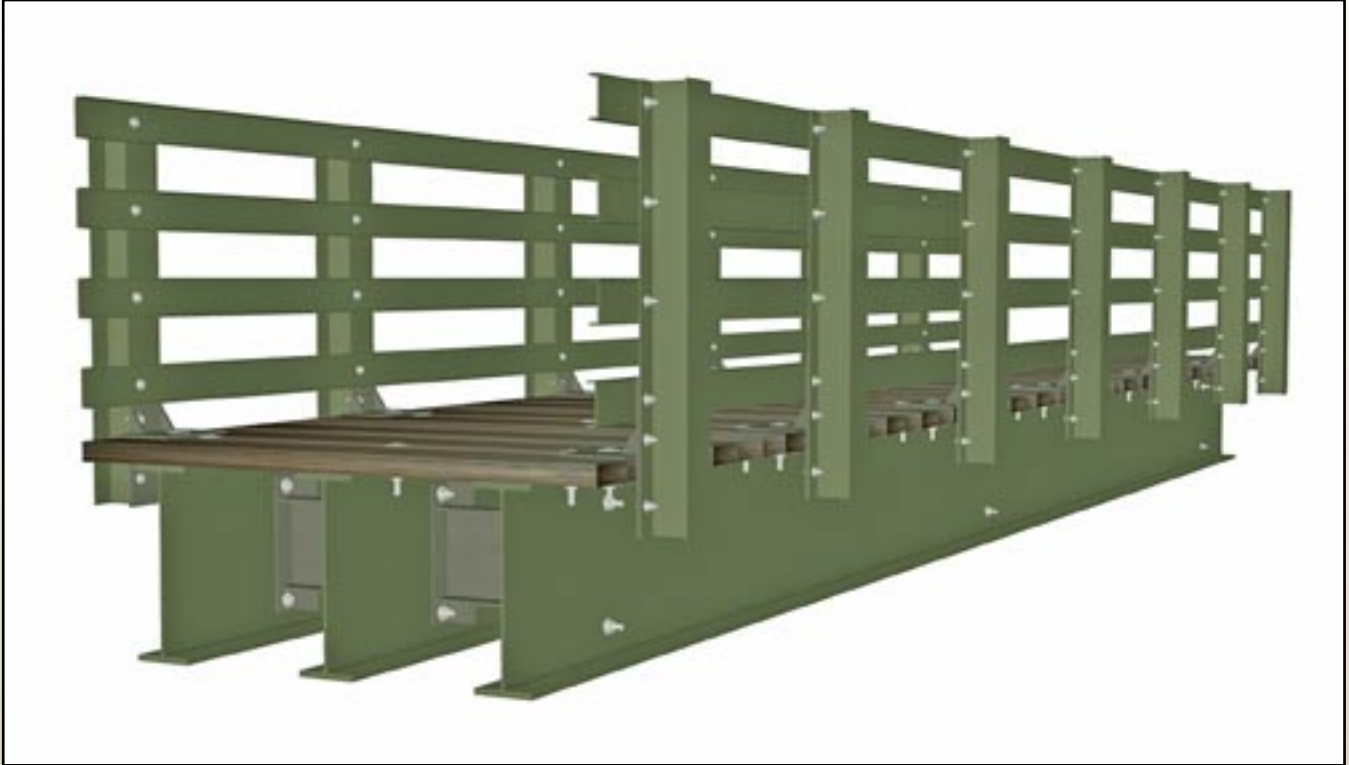

STRONGWELL

Wheeler's background in the design and supply of recreation bridges and Strongwell's industry leading experience as an FRP manufacturer provides a proven combination.

FRP

RECREATION BRIDGES

Stringer Bridge Kits

Stringer bridge designs provide for faster assembly with fewer components. Even 30 foot stringers weigh less than 500 lbs. FRP railing packages are available and can be customized to the project.

BRIDGE KITS INCLUDE

All Required Hardware

Decking

Treated Wood

Naturally Durable Wood

Wood/Plastic Composite

FRP Grating

Detailed Plans Sealed by

Professional Engineer

FRP ADVANTAGES

Lightweight Components

Ideal for Remote Sites

Corrosion Resistant

Long Service Life

Pre-fabricated Kits

Easy Assembly

Green Color (standard)

- Single or multiple span configurations
- Loadings: pedestrian, equestrian, maintenance vehicles
- Foundation design available when site and soil information is provided
